Dear Harold, 10/16/95

Hanh-Trang and I were glad to hear the samples of Ensure we sent were so helpful. I believe she still has some samples of the pudding at home if Lillian would like some more.

I have been pretty busy with school work. Among other things, a colleague of mine in art history and I have been promoting an Interim (Jan. term) project on American city planning which will involve some travel on the East Coast. We haven't been able to drum up much student interest, so we may have to scale back our travel plans considerably and teach it mainly on campus.

Enclosed is a review of a new Mailer book.I am sure you will appreciate some of the comments. Sounds like it is in the same genre as Oswald's (or is it Mailer's) Tale.

Best Wishes,

Gerry
